VIJAY PAWASE

Senior UX/UI Designer & Product Design Mentor

vijaypawase.ux@gmail.com | +91-9822321143 | Pune, India

LinkedIn Profile | Portfolio

PROFESSIONAL SUMMARY

Certified Google UX Designer, **Human-Computer Interaction (HCI)** and Product Design Mentor with 20 years of experience creating intuitive, user-centered digital experiences for financial, healthcare, enterprise SaaS, and public sector applications. Proven expertise in leading cross-functional design teams, establishing design systems, and integrating AI-powered design workflows to enhance productivity. Skilled in end-to-end UX processes from user research and prototyping to usability testing and implementation. Adept at bridging business objectives with user needs through data-driven design decisions and strategic collaboration with stakeholders.

CORE COMPETENCIES

- UX Strategy & Product Discovery
- User Research & Usability Testing
- Design Systems & UI Component Libraries
- Wireframing & Interactive Prototyping
- Information Architecture & User Flows
- AI-Assisted Design Workflows
- Team Leadership & Mentoring
- Cross-Functional Collaboration (Agile)
- Stakeholder Management & Presentations
- Responsive Web & Mobile Design
- Accessibility (WCAG 2.1) & Inclusive Design
- Generative AI for UX Research

TECHNICAL SKILLS

- **Design Tools:** Figma, Adobe XD, Sketch, Axure RP, Miro, Adobe Creative Cloud, InVision
- **Front-End Development:** HTML5, CSS3, SCSS, LESS, jQuery, Bootstrap, Angular Material Design
- **Collaboration & Workflow:** Jira, Confluence, Git, Agile/Scrum, Design Sprints
- **CMS Platforms:** Drupal, WordPress, Joomla, Moodle
- **AI-Powered Tools:** ChatGPT for UX writing, Midjourney/DALL-E for concept visualization, Claude for user research synthesis, AI-assisted prototyping tools, Google's AI tools
- **Methodologies:** Design Thinking, Human-Centered Design, Jobs-to-be-Done, Heuristic Evaluation

PROFESSIONAL EXPERIENCE

UI/UX Consultant & Product Design Architect — Aug 2025 – Present

Self-Employed | Pune, India

- Providing end-to-end UX/UI consultation for B2B and B2C digital products, specializing in simplifying complex workflows and improving user engagement through data-driven design strategies
- Conducting user research, competitive analysis, and usability testing to inform design decisions and validate product-market fit
- Creating design systems and component libraries to ensure consistency and scalability across multiple product lines
- Leveraging Generative AI tools for rapid prototyping, UX copywriting, and user persona generation, reducing design iteration cycles by 30%

UI/UX Lead Manager — Apr 2025 – Aug 2025

Pitney Bowes | Pune, India

- Defined and executed comprehensive UI/UX strategy aligned with business objectives for enterprise shipping and mailing solutions
- Led and mentored a team of 6 designers, establishing design standards, conducting design reviews, and fostering professional growth
- Collaborated with product managers, engineers, and stakeholders to translate complex business requirements into intuitive user interfaces
- Established and maintained design systems ensuring consistency across web and mobile applications, improving development efficiency by 25%
- Conducted comprehensive usability testing sessions, synthesizing insights to refine designs and improve task completion rates by 40%

UI/UX Lead Manager — Dec 2024 – Apr 2025

MRI Software | Pune, India

- Developed UX strategy for real estate management software, improving user satisfaction scores by 35% through research-driven design decisions
- Managed end-to-end design lifecycle from concept creation to implementation for SaaS property management applications
- Created comprehensive design documentation including user journey maps, personas, and service blueprints to align stakeholders
- Integrated AI-powered analytics tools to identify user pain points and prioritize feature development based on behavioral data

UI/UX Manager — Dec 2020 – Nov 2024

Capita | Pune, India

- Gathered and evaluated user requirements in collaboration with product owners and stakeholders for public sector applications
- Drove development and communication of design guidelines, pattern libraries, and reusable UI components
- Presented UX design concepts to executive stakeholders, incorporating feedback to align business goals with user needs
- Redesigned legacy applications for Android, iOS, desktop, and web, improving accessibility compliance and cross-platform consistency

Lead UI/UX Designer — Aug 2018 – Dec 2020

Barclays | Pune, India

- Designed customer-facing financial applications for web, iOS, and Android, adhering to stringent security and compliance standards
- Collaborated with product owners to define feature requirements and prioritize development roadmaps based on user feedback
- Developed comprehensive design systems with reusable components, reducing design-to-development handoff time by 30%
- Implemented responsive design principles ensuring seamless experiences across mobile, tablet, and desktop devices

Lead UI/UX Designer — Sep 2015 – Jul 2018

Cybage Software Pvt. Ltd. | Pune, India

- Created high-fidelity interactive prototypes demonstrating complex application workflows to clients, resulting in faster approval cycles
- Performed front-end development using HTML5, CSS3, Angular Material Design 2, Bootstrap, jQuery, and SCSS
- Mentored junior designers and developers on best practices, conducted code reviews, and resolved technical design challenges
- Worked on CMS-based applications (Drupal), achieving project goals ahead of deadlines through efficient collaboration

Previous Roles: *UI/UX Consultant at Datamatics UK Ltd. (2015), Lead UI/UX Designer at Harbinger Group (2011-2015), Sr. UX/UI Designer at Avians M2M Solutions (2010-2011), UX/UI Designer at There4 Virtual Media (2006-2010)*

EDUCATION & CERTIFICATIONS

Bachelor of Business Administration (BBA)
Pune University, Maharashtra | 2013

Professional Certifications

- **Google UX Design Professional Certificate** – Google
- **Human-Computer Interaction (HCI)** – Interaction Design Foundation
- **Google AI Essentials** – Google – Leveraging AI for productivity and design automation
- **Using AI in the UX Design Process** – Advanced certification on integrating Generative AI tools for user research, prototyping, and content generation
- **Create High-Fidelity Designs and Prototypes in Figma** – Google
- Conduct UX Research and Test Early Concepts – Google
- Build Wireframes and Low-Fidelity Prototypes – Google
- Agile User Experience Design and Research – LinkedIn Learning
- UX Foundation: Usability Testing – LinkedIn Learning
- Master in UX and Web Design – Udemy

KEY ACHIEVEMENTS

- Successfully led design teams across multiple Fortune 500 companies including Barclays, Pitney Bowes, and Capita
- Reduced design-to-development cycle time by 30% through implementation of comprehensive design systems
- Improved user satisfaction scores by 35-40% through research-driven redesign initiatives
- Mentored 30+ junior designers and UX professionals, with 15 advancing to senior-level positions
- Pioneered integration of AI-powered design tools, reducing prototyping time by 30% and enhancing user research synthesis

GENERATIVE AI & EMERGING TECHNOLOGIES

- **AI-Powered UX Research:** Utilizing ChatGPT and Claude for user interview synthesis, persona generation, and competitive analysis
- **Generative AI for Prototyping:** Leveraging Gemini, Midjourney and DALL-E for rapid concept visualization and mood board creation
- **AI-Assisted UX Writing:** Implementing AI tools for microcopy generation, A/B testing variations, and tone-of-voice optimization
- **Conversational AI & Voice Interfaces:** Designing for chatbots, voice assistants, and AI-driven customer support systems
- **Prompt Engineering for Designers:** Training design teams on effective prompt crafting for AI tools to enhance design workflows and productivity
